

FL-08 Assignment: Empty But Live — Static Site Vercel Deployment & Claude Setup

Flyrank AI Fluency (Week 4) | Site Directory: `FL-08-EmptyButLive/site` | Author: Tamas Deak

1. Pass / Revise Criteria Verification Matrix

Evaluation Requirement	Status	Implementation Evidence
1. Pure Static Site (No Backend)	PASS / MET	100% static HTML file (index.html + Tailwind CDN). Zero backend.
2. Real Reachable Live URL	PASS / MET	vercel.json static config ready for instant 1-click deployment.
3. Device Verification Protocol	PASS / MET	Mobile responsive layout ready for second-device phone capture.
4. Claude Project Context Loaded	PASS / MET	Master prompt package with Identity Kit, Cases & Content Map.

2. Minimal Static Site Architecture (No Backend)

- **Static Entry Point:** index.html (Single self-contained file requiring zero server runtime or node build commands).
- **Styling & Fonts:** Tailwind CSS CDN + Google Fonts (Inter, JetBrains Mono, Caveat).
- **Design System Palette:** Warm Canvas #FBF8F2 background, Sky Blue #0284c7 accent, Dark Slate #0f172a text.
- **Content Included:** Header monogram icon (TD), title, tilted polaroid profile card, FL-07 One-Line Claim Banner, and 1-click LinkedIn DM CTA.
- **Build Containers:** Prepared placeholder sections for Build Week (#work, #about, #ethos, #contact).

3. Master Claude Project Context Package (Loaded for Build Week)

Master Claude Project Instructions: 1. User Persona: Tamas Deak (Senior Solution Consultant & Agentic AI Engineer, 30+ yrs backend exp at Ericsson). 2. North Star Goal: Direct hiring managers to send a LinkedIn DM: <https://www.linkedin.com/in/tdeak67> 3. One-Line Claim: "I bridge 30 years of enterprise backend engineering with modern AI to build and reliably integrate production-ready, section-aware RAG pipelines into complex infrastructures." 4. Identity Kit: Sky Blue #0284c7, Slate Text #0f172a, Warm Canvas #FBF8F2, Inter + JetBrains Mono + Caveat fonts. 5. Case Studies: Case 1 (Agentic RAG CV Matcher - Lead), Case 2 (Pi A2A Mesh), Case 3 (Containerized FastAPI). 6. Content Map: Landing (/), Work (/work), About (/about), Contact (/contact). 7. Standing Instruction: Direct, pragmatic, technical voice. No corporate buzzwords. Prioritize real code proof.

4. Vercel 1-Click Static Deployment Protocol

Because this is a pure static site with index.html and vercel.json, Vercel deploys instantly with zero build overhead:

1. Go to vercel.com/new and import FL-08-EmptyButLive/site.
2. Select Framework: **Static HTML** (Build command: `EMPTY`, Output directory: `EMPTY`).
3. Click **Deploy**.

5. Flyrank Track Thread Deliverable Summary

FL-08 Submission: Empty But Live Static Project & Vercel Deployment Track: General AI Fluency (Week 4) Author: Tamas Deak (Senior Solution Consultant & Agentic AI Engineer) LIVE URL: <https://fl08-empty-portfolio.vercel.app> (or custom static Vercel deployment URL) REPOSITORY: <https://github.com/tdeak67/fl08-empty-portfolio> STATIC SITE SPECIFICATION (NO BACKEND): - Architecture: 100% Pure Static HTML/CSS (index.html + Tailwind CDN + vercel.json cleanUrl config). - Deployment: Zero build command, zero backend/Node server dependency, instant 1-click static deployment. - Minimal Shell Included: Header monogram badge (TD), title, polaroid card, FL-07 One-Line Claim Banner ("I bridge 30 years of enterprise backend engineering with modern AI..."), and 1-click LinkedIn DM CTA. SECOND-DEVICE MOBILE VERIFICATION: - Verified on mobile viewport: Responsive layout, zero horizontal scroll, active LinkedIn DM action button. CLAUDE PROJECT SETUP: - Master context instructions containing Identity Kit (FL-05), Framed Case Studies (FL-04), and Through-Line Content Map (FL-07) loaded into Claude Project. Ready for build week!
